Ref.: cooperation with Russian Institute "UralGiproMez"

Dear Sir,

The Trade Representation of the Russian Federation in Pakistan is looking for promoting and improving our bilateral trade & economic cooperation. In order to increase Russia-Pakistan relations we do all our best to inform businessmen of both side about opportunities & requests from our countries.

And for this purpose we would like to inform you that Russian Company OAO Institute «UralGiproMez» ([www.uralgipromez.ru](http://www.uralgipromez.ru)) is looking for Pakistani market and proposes different kind of service in metallurgical works.

Institute is basically oriented to metallurgical works, construction companies, refractory and construction material producing enterprises. The main aim is to become the leading Company in these industries though which Institute can guarantee their clients reliable business development by rendering them high quality services. Institute excels in making innovative decisions in project-survey, design and expert activities. The task is to modernize client's production procedures and processes by applying highly developed skills to help make client's business more efficient and profitable.

OAO Institute "UralGiproMez" carries out design and survey activities for ferrous and non-ferrous enterprises; object of industrial, civil and mechanical engineering; power complex projects; construction materials and fireproofing production. For over 80 years the Institute has gained unique experience in developing complex design and construction documentation. Many of the most significant industrial complexes built in Russia and abroad in recent years were based on the Institute's designs; as well as many metallurgical works which were retrofitted and reoriented.
